COUNTRIES REGULATION

ACFTA (2004)	AIFTA (2021)
Rules of Origin (ROO)	Rules of Origin (ROO)
Phytosanitary Sertificate	Sanitary and Phytosanitary Measures
Tariff Reduction and Elimination	Non-Tariff Measures (NTMs)
Operational Certification Procedures	Trade Facilitation

THEORETICAL ANALYSIS

The theory of neo-liberalism is the right theory in this case because under ACFTA and AIFTA, there are some regulations that can simplify trade procedures and accelerate trading activities between both China-Indonesia and India-Indonesia. There are no trade barriers when the exporters obey the regulations.
